

PATHOPHYSIOLOGY OF SHOCK SEPSIS AND ORGAN FAILURE FILE PDF

Ernesto Elliott

Pathophysiology Of Shock Sepsis And Organ Failure Introduction

Septic shock [x]Septic shock is a potentially fatal medical condition that occurs when sepsis, which is organ injury or damage in response to infection, leads to dangerously... Multiple organ dysfunction syndrome [x]most common cause of multiple organ dysfunction syndrome and may result in septic shock. In the absence of infection, a sepsis-like disorder is termed systemic... Sepsis [x]Sepsis is a potentially life-threatening condition that arises when the body's response to infection causes injury to its own tissues and organs. This... Distributive shock [x]is sepsis leading to a type of distributive shock called septic shock, a condition that can be fatal. Elbers and Ince have identified five classes of abnormal... Hypovolemic shock [x]Hypovolemic shock is a medical emergency; if left untreated, the insufficient blood flow can cause damage to organs, leading to multiple organ failure. In treating... Shock (circulatory) [x]shock may be due to sepsis, anaphylaxis, injury to the upper spinal cord, or certain overdoses. The diagnosis is generally based on a combination of symptoms... Toxic shock syndrome [x]binding to the variable region of the α -chain of the T cell antigen receptor. "Sepsis and Toxic Shock Syndrome". Sepsis Alliance. 18 June 2024. Archived... End organ damage [x]Hypovolemic shock occurs due to low circulating volume of fluids in the blood vessels. Distributive shock, which can occur due to anaphylaxis or sepsis, results... Systemic inflammatory response syndrome (category Sepsis) [x]College of Chest Physicians/Society of Critical Care Medicine Consensus Conference: definitions for sepsis and organ failure and guidelines for the use of innovative... Febrile neutropenia (redirect from Neutropenic sepsis) [x]Christian (January 2008). "Surviving Sepsis Campaign: international guidelines for management of severe sepsis and septic shock: 2008". Critical Care Medicine... Meningococcal disease (redirect from Meningococcal sepsis) [x]known as a cause of meningitis, it can also result in sepsis, which is an even more damaging and dangerous condition. Meningitis and meningococemia are... Disseminated intravascular coagulation (section Pathophysiology) [x]Complications may include organ failure. Relatively common causes include sepsis, surgery, major trauma, cancer, and complications of pregnancy. Less common... Thyroid storm (section Pathophysiology) [x]cardiac arrest or multiple organ failure. It is characterized by a high fever (temperatures often above 40 °C / 104 °F), fast and often irregular heart beat... Ascending cholangitis (redirect from Biliary sepsis) [x]carries a significant risk of death, the leading cause being irreversible shock with multiple organ failure (a possible complication of severe infections). Improvements... Hypoglycemia (redirect from Hypoglycemic shock) [x]illness, sepsis, kidney failure, liver disease, hormone deficiency, tumors such as insulinomas or non-B cell tumors, inborn errors of metabolism, and several... Bloodstream infection (category Sepsis) [x]brushing of teeth. Bacteremia can have several important health consequences. Immune responses to the bacteria can cause sepsis and septic shock, which... Purpura fulminans (section Combination of sepsis and partial congenital defect) [x]canimorsus 2020: "A case of fulminant sepsis caused by *Capnocytophaga canimorsus* after a dog bite." 2018: "Purpura Fulminans and Septic Shock due to *Capnocytophaga*... Hypotension (redirect from Causes of hypotension) [x]can deprive the brain and other vital organs of oxygen and nutrients, leading to a life-threatening condition called shock. Shock is classified based on... Acute kidney injury (redirect from Kidney failure, acute) [x]blockage of urine flow). Prerenal causes of AKI include sepsis, dehydration, excessive blood loss, cardiogenic shock, heart failure, cirrhosis, and certain... Lipopolysaccharide (redirect from Endotoxic shock) [x]acute organ failure which can lead to septic shock. In lower levels and over a longer time period, there is evidence LPS may play an important and harmful...
