

# ACCESS FREE ULTRAFAST LASERS TECHNOLOGY AND APPLICATIONS

Lillie Schwartz

## Ultrafast Lasers Technology And Applications Introduction

Ultrafast laser spectroscopy [x]Ultrafast laser spectroscopy is a category of spectroscopic techniques using ultrashort pulse lasers for the study of dynamics on extremely short time... Ultrashort pulse laser [x]dispersion). Common current ultrashort pulse laser technologies include Ti:sapphire lasers and dye lasers. High output peak power usually requires chirped... Ultrashort pulse (redirect from Ultrafast laser) [x]Animation on Short Pulse propagation in random medium (YouTube) Ultrafast Lasers: An animated guide to the functioning of Ti:Sapphire lasers and amplifiers.... Fiber laser [x]gain and thus serve as gain media for a fiber laser.[citation needed] An advantage of fiber lasers over other types of lasers is that the laser light... Laser ablation [x]lasers clean a large spot with a single pulse. Lower power lasers use many small pulses which may be scanned across an area. In some industries laser... Laser [x](collimation), a feature used in applications such as laser pointers, lidar, and free-space optical communication. Lasers can also have high temporal coherence... Nanotechnology (redirect from Nano technology) [x]semiconductor materials commonly used in chip and computing applications, stacks, gating, and nanowire lasers. These seek to create smaller devices by using... Spectroscopy (redirect from Applications of spectroscopy) [x]spectroscopy is a widely used resonance method, and ultrafast laser spectroscopy is also possible in the infrared and visible spectral regions. Nuclear spectroscopy... Optical fiber (redirect from Applications of optical fiber) [x]designed fibers are also used for a variety of other applications, such as fiber optic sensors and fiber lasers. Glass optical fibers are typically made by drawing... Pulsed laser [x]These lasers, such as the excimer laser and the copper vapor laser, can never be operated in CW mode. Pulsed Nd:YAG and Er:YAG lasers are used in laser tattoo... Excimer laser [x]excimer-laser-pumped dye lasers, in High Power Dye Lasers, Duarte, F. J. (Ed.) (Springer, Berlin, 1991) Chapter 4. Chrisey, D.B. and Hubler, G.K., Pulsed Laser Deposition... LASIK (redirect from Keratomileusis, laser in situ) [x]determine their thickness, and with a topographer, or corneal topography machine, to measure their surface contour. Using low-power lasers, a topographer creates... Argon fluoride laser [x]ISBN 3-540-20056-8. Jain, K.; Willson, C.G.; Lin, B.J. (1982). "Ultrafast deep UV Lithography with excimer lasers". IEEE Electron Device Letters. 3 (3): 53–55. Bibcode:1982IEDL... Krypton fluoride laser [x], Excimer Laser Technology, Springer, 2005. Jain, K.; Willson, C.G.; Lin, B.J. (1982). "Ultrafast deep UV Lithography with excimer lasers". IEEE Electron... Figure-8 laser [x](2002). Ultrafast Lasers: Technology and Applications. CRC Press. doi:10.1201/9780203910207. ISBN 978-0-8247-4349-9. "Mode-locked Fiber Lasers: 1.5-?m... Donna Strickland (category Laser researchers) [x]something work, and the lasers were very finicky in those days. Strickland's recent work has focused on pushing the boundaries of ultrafast optical science... Holography (redirect from Laser holograms) [x]high-power and expensive lasers. Currently, mass-produced low-cost laser diodes, such as those found on DVD recorders and used in other common applications, can... Thermopile laser sensor [x]100 ?m) and so is the total absorption length. It is used for power measurements of lasers with long pulse length (generally for CW laser). If a laser with... Laser-induced breakdown spectroscopy [x]result of focusing ultrafast laser pulses in a gas. The self-luminous plasma is far superior in terms of low level of continuum and also smaller line broadening... Clara Saraceno (category Laser researchers) [x]1983) is a laser scientist whose research involves the development of ultrafast lasers, a technology whose applications include ultrafast laser spectroscopy...
